

On Colorado Gives Day – Tuesday December 6th –

Help Us Raise Money For The New Shelton Playground

A new playground helps us keep our community kids active and healthy. The playground enhances the community. Your donation will give to children for generations to come.

Ways to Give

- 1) **Pre-schedule** your donation; Shelton will get a **percent of matched funds from CO foundations.**
- 2) Many employers match charitable donations –find out if yours will.
- 3) During the Holidays, ask for a donation in place of gifts. A good playground will bring joy to generations of kids.
- 4) Donate to your friends & family's charitable causes? Ask for a donation to Shelton.
- 5) Invest in your community parks, ask neighbors to donate \$10 on Dec. 6th

Why replace the playground? Shelton Elementary serves 432 plus students with more students likely coming in the future. Shelton has the most socio-economically diverse area of Golden with a wide range of income levels, races and ethnicities. The basic metal play structures installed in 1994, fail to attract neighborhood kids including whose families are living at or below poverty, to engage in outdoor physical activity. Shelton's Health and Wellness Committee is seeking an ADA compliant, safe, updated playground surface and equipment to create a destination to activate age-appropriate stimulating play and increase vigorous activity.
